

THE VITAE CLINIC

# Infertility Program

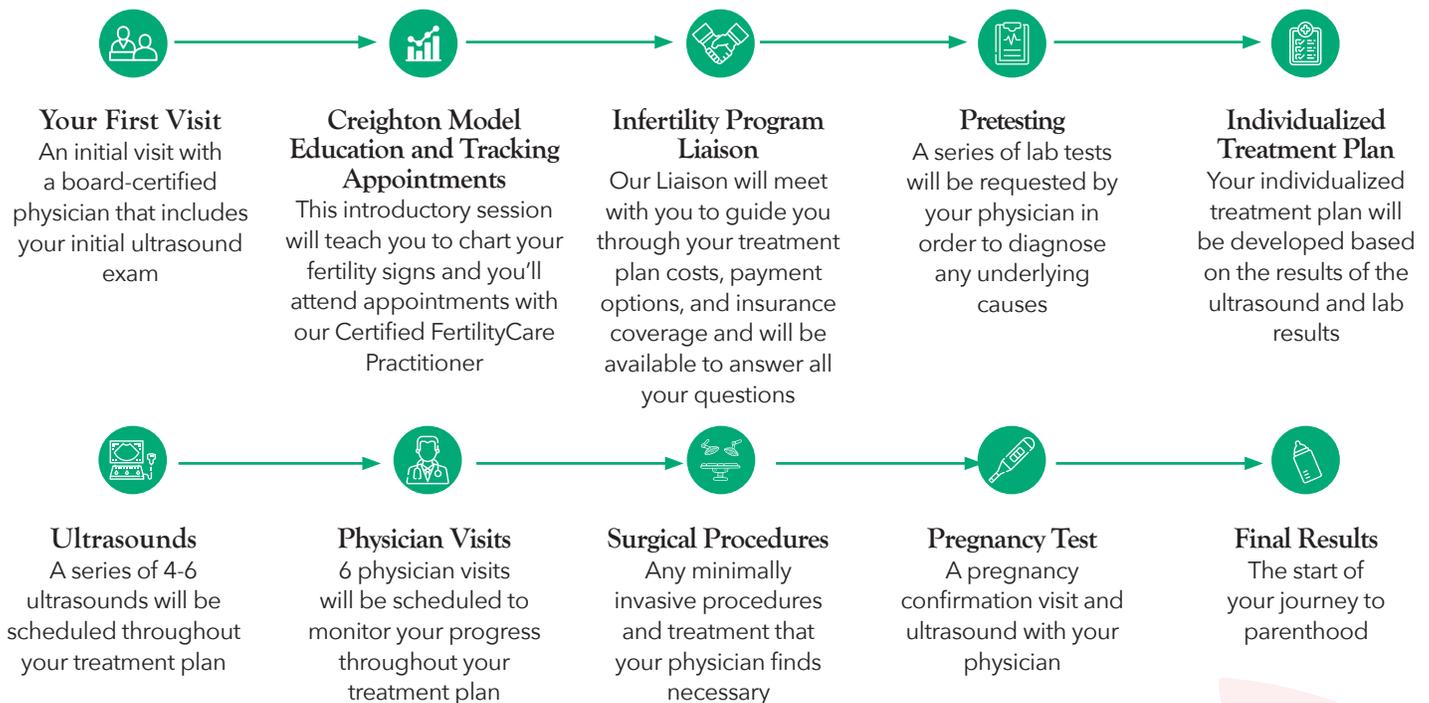

From gynecological services and obstetrics, to family planning and infertility, we have always been committed to providing a higher standard of comprehensive care in a sensitive, considerate and confidential environment. We are proud to offer an Infertility Program that takes you from your first visit through treatment.

## We Achieve a High Rate of Success

- Medically safe and highly effective Infertility treatment
- More effective - and often less costly - than IVF
- Individualized treatment plans
- Based on NaProTECHNOLOGY®
- Preserve each couple's dignity
- Empowers the woman to understand the science of her body
- Creighton Model Training
- Telemedicine visits and flexible scheduling available

## What to Expect During Your Journey

At the Vitae Clinic, NaProTECHNOLOGY® is the cornerstone of our success in assessing the underlying causes of reproductive anomalies and in developing effective treatment plans. NaProTECHNOLOGY® provides the best in current medical care, applying diagnostic and therapeutic techniques in a way that is cooperative with the natural functions of a woman's body. NaProTECHNOLOGY® is a comprehensive system developed through extensive research at the National Center for Women's Health since 1985.
